

Type F M Non-Shorting Dust Cap, Protects F Female Connectors

DC-FM01

Features

- Protects against dust and contaminants
- Protects against physical damage
- Nickel Plated Body

Applications

- General Purpose Laboratory Use
- Test and Measurement

Description

Polyphaser's DC-FM01 connector dust cap has an F interface and a male gender. Our F male dust cap is a non-shorting design with a nickel plated body to ensure durability. The Polyphaser non-shorting F connector cap is part of over 40,000 RF, microwave and millimeter wave products that ship the same day.

RF connector dust caps are essential for precision connectors, protecting them from dust, corrosion and potential damage especially to test and measurement equipment. Specific RF connector cap models come with a chain to prevent loss or misplacement. Internal short connector cap versions are available to protect equipment from a spike in current caused by electrostatic discharge (ESD).

Mechanical Specifications

Configuration

Connector

F Male Non-Shorting

Hex Size

7/16 inch

Description	Material	Plating
Body	Brass	Nickel
Gasket	Silicone Rubber	

Size

Length

0.33 in [8.38 mm]

Width

0.43 in [10.92 mm]

Weight

0.01 lbs [4.54 g]
